

## Accurate Technology Introduces ProTable-CAB

Introducing ProTable-CAB, the latest addition to the ProTable family of measuring solutions from Accurate Technology. ProTable-CAB was designed as a turn-key solution for quality control measurements of cabinet doors.

Two ProScale® measuring systems are recessed and mounted to a laminated substrate in an X-Y configuration allowing dimensional measurements up to 60(X) by 40(Y) inches (1500 x 1000mm) to be made simultaneously. A built-in, illuminated opening allows instant inspection of part edges and checking for out-of-square conditions. The measuring table angle is adjustable from 15 to 55 degrees of tilt.

ProTable-CAB comes in two models: One with VDRO™ Virtual Digital Readout software and parts database, and a touch screen LCD display. The other model comes with ProScale Digital Readouts.

Founded in 1989, Accurate Technology, Inc. supplies affordable linear digital measuring systems to the metal, wood, composite, medical, automotive and aviation industries throughout the world. For more information, contact Accurate Technology or visit [www.proscale.com](http://www.proscale.com).

## ProTable-CAB Specifications

### Measuring Range

- Standard Model: 60 x 40 inches (1500mm x 1000mm)
- Custom configurations available up to 16 feet (4.8m)

### Accuracy

- ±.012in (.3mm)

### Resolution

- .1inch .1mm or
- .01inch .01mm or
- .001inch .01mm or
- (cm and fractions available with ProScale Readouts)

## Virtual Digital Readout Specifications

### VDRO Digital Readout Features (optional)

- One or two axis displayed
- Programmable direction & position Datum for each axis
- Programmable resolution
- Measurement histogram (Optional)

### Part Database Features

- Parts can be created, edited or deleted
- Unique Part IDs with descriptions up to 50 characters
- Nominal & Upper/Lower limit for X and Y measuring parameters

### Output File Features

- Comma Separated Value (csv) file Includes:  
Actual measurements for X and Y, Time of measurement, Error, In-specification result (yes/no)

### Hardware Requirements

- Pentium class PC running Microsoft® XP or Vista®

## Ordering Information

Model	Part Number	Measuring Range	Price
ProTable-CAB	901-5200-001	40 x 60 inches 1000 x 1500 mm with 2 ProScale Digital Readouts	\$ 3,600
ProTable-CABVDRO	901-5210-001	40 x 60 inches 1000 x 1500 mm with Touchscreen display and VDRO software	\$ 3,900
ProTable-CAB Accessories		Description/Use	Price
VDRO™ Standard	901-7300-001	2 Axis Software Digital Readout & Parts database	\$ 200
VDRO™ Professional - Charting	901-7301-001	VDRO Standard with measurement histogram capabilities	\$ 300
VDRO™ Professional - Barcode*	901-7302-001	VDRO Standard with Symbol LS2208 Barcode Scanner input enabled	\$ 300
VDRO™ Professional - Label Printing*	901-7303-001	VDRO Standard with Zebra LP-2844 thermal Label Printer output enabled	\$ 300
VDRO™ Professional - Barcode & Label Printer*	901-7304-001	VDRO Standard with Barcode AND Printer capabilities enabled	\$ 350
VDRO™ Professional - All*	901-7305-001	VDRO Software with all capabilities enabled	\$ 400

\* Scanner and Printer NOT included
